What is Rock, Paper, Scissors Online?

Rock, Paper, Scissors Online is a free webapp that lets you relive the glory days of the times when only the best could go first. Play against a computer opponent in a daring game of wits to help you make important life decisions you would otherwise leave to a coin flip!

How to play:

Simply begin by choosing your input using the buttons in the play area. Even though you initialize the round, rest assured that the computer makes its choice not knowing yours. No cheating AI here!

The game will announce a winner for each round and after you or the computer have won 3 rounds it will announce a winner for the game.

Please note: There is currently no logic to reset the game automatically. You should follow the on-screen prompt to refresh the page in order to experience the most authentic Rock, Paper, Scissors experience.
